### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 21 recites the broad recitation that each card has various information about the wrestler, and the claim also recites that the information includes statistics of a specific wrestler which is the narrower statement of the range/limitation.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21-25, 27-29, 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Bashirzadeh (USPN 5467997).

Bashirzadeh discloses a method of using informational playing cards. The methods comprise of: a) having a deck of informational playing card, b) each player selecting a card from his/her hand, c) selecting a statistical element, and d) the winner being determined by who has the prevailing statistical element (See Abstract and Column 2, lines 11 through 59). The deck of informational playing cards may comprise of categories and sub-categories (See Column 3, lines 63 through 67; and Column 4, lines 1 through 9). Each card also comprises a primary printed indicia, which includes a picture, and a secondary printed indicia, which includes a plurality of statistical elements (See Column 6, lines 13 through 37). The prevailing statistical element is determined by the players, in which the prevailing statistical element may be the highest value or the lowest value (See Column 5, lines 1 through 13).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 26 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bashirzadeh (USPN 5467997).

Bashirzadeh discloses the above but lacks a method of dropping the selected cards as to tumble end over and land either face up or down. There is no difference in the outcome of the game by the way the cards are presented. Bashirzadeh discloses showing the other players the card in play and achieves the same result. Furthermore, the tie breaking method is obvious due to the fact that there are a plurality of statistical element on the cards in which do not equal each other making it convenient for use. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the method of Bashirzadeh, by dropping the card in a tumble end over fashion, in order to distinguish the presenting of the cards during play. It also would have been obvious to one having ordinary skill in the art at the time the invention was made to have a time breaking method by selecting another statistical element in order to utilize its convenience.

4. Claims 32-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bashirzadeh (USPN 5467997) in view of Garfield (USPN 5662332).

Bashirzadeh discloses the above but lacks a method of rating the amount of punishment inflicted on or by a player to another player. Garfield discloses a trade card game providing the utilization of energy allow the player to attack, defend, and modify the effects of other cards (See Abstract). The goal of the game is to reduce the other player life points to a level below one (See Abstract). Recall, Bashirzadeh discloses a

method of selecting the statistical element used to determine the winner; therefore, a die is not necessary in order to provide an outcome of the game. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to combine the invention of Garfield to the invention of Bashirzadeh in order to provide an energy decreasing means during game play. It also would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention of Bashirzadeh in view of Garfield, by adding a die, in order to provide an alternative chance means.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin A Hunter whose telephone number is 703-306-5693. The examiner can normally be reached on Monday through Friday from 7:30AM to 4:30PM Eastern Time.

**6/18/01**

**The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.**

**INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

**1. Correction of Informalities -- 37 CFR 1.85**

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

**2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.**

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

**Timing of Corrections**

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
